**Byrkjedalstunet was built by Randi and Daniel Øvstebø. Surrounded by astounding nature, this is a lovely place to enjoy Norwegian traditions at their best. We take pride in getting all the details right. No wonder an American guest once exclaimed enthusiastically: "This place is just like a miniature Norway"**

It is amazing what you can create when you dare to look beyond grass and rock. Every house is an original building or has been reproduced piece by piece with authentic historical accuracy. The restaurant was once a local dairy as you can see when you visit us.

**You can trust our food – we were there when the beef was born.** Everything served is made with great pride, from scratch. We always prefer to use ingredients from our own farm or sometimes from our neighbours. **Small and grand parties.** We can provide you with great venues for up to 500 guests.

**A surprisingly large outlet.** In addition to our renowned quality candles, this vast outlet is stocked with attractive interior details, souvenirs, handcrafted wood, wool designs, fur and leather goods, stones, minerals, local arts & crafts, small scale providers of local preservatives, honey, spices and other delicacies.

**365 days of Christmas.** A wide selection of "Nisser", snow globes, ornaments and pretty decoration pieces can be found in the attic all year around.

**Sweet memories.** If you are dreaming of waking up to the sound of playful goats on the grassy hillside, birds tweeting and a stream flowing. Please treat yourself to an overnight stay in our charming rooms, with lovely beds complete with goose down covers.

Byrkjedalstunet is recommended for families, friends, businesspeople, weddings, celebrations and loving couples looking for a romantic retreat. Arranging a party, team-building event or something fun and special?
